

99.9999% Reduction of Airborne MS2 Virus ¹

^[1] Laboratory testing in a 16m³ chamber. Results achieved within one hour.

- The VK 103 achieves a 99.99% reduction in MS2 virus in under 35 minutes.²

- The VK 103 reduced airborne MS2 by more than 99.9999% in under an hour.²

^[2] Laboratory testing in a 16m³ chamber.

Features

- **17 Year Legacy:** Certified performance, world class filtration, patented decontamination, low energy consumption, low noise levels, no harmful by products, all metal housing.
- **All-in-One:** Unrivalled performance against organic pathogens – viruses, bacteria, mold, and fungi – as well as allergens, irritants, smoke, and VOCs.
- **Airflow Control:** VIRUSKILLER™ precision airflow control draws contaminated air away from occupants, expelling clean, fresh air into the breathing zone of the room.
- **Plug and Play:** Simple operation means out-of-the-box indoor air safety, with no complex installation, setup, or renovation required.
